PROFESSIONAL PROFILE

Junior Data Analyst | IT Graduate with hands-on experience in Power BI, including data modelling, DAX, and dashboard development, currently expanding skills in SQL through a Data Analytics Bootcamp. Experience working in structured and compliance-driven environments, with strong attention to detail, data accuracy, and process adherence. Seeking an entry-level Data Analyst, Reporting, or BI Support role where I can apply my technical foundation and continue developing within a data-driven team.

SKILLS

DATA, TECHNICAL & ANALYTICAL SKILLS

- Power BI (data modelling, DAX measures, dashboards, visualisations)
- Power Query (data cleaning and transformation)
- SQL (fundamentals, JOIN, GROUP BY – currently developing)
- Microsoft Excel (formulas, Pivot Tables, validation, reporting)
- Relational Databases (RDBMS fundamentals)
- Data cleaning, transformation, validation and quality checks
- Basic data modelling
- Reporting & performance tracking
- Process improvement & documentation
- Jira & Confluence

PROFESSIONAL STRENGTHS

- Strong attention to detail and analytical problem-solving
- Structured & process-driven mindset
- Effective stakeholder communication
- Understanding of compliance and data governance

EDUCATION

Data Analytics Bootcamp – TAFE, Australia (2026 – Current – Part-time evening program)

- Completed Power BI training including:
 - Data modelling and relationships
 - DAX calculations and measures
 - Dashboard and report development
 - Row-Level Security (RLS)
- Currently developing SQL skills (queries, joins, data extraction)

Bachelor of Information Technology (BIT) – Southern Cross University, Australia (2023) || GPA 6.24

Certificate IV Marketing and Communication – Australia (2021)

Certificate IV Project Management – Australia (2019)

Hospital Pharmacy Residency Program (Postgraduate) – Brazil (2015)

Bachelor of Pharmacy – Brazil (2013)

EXPERIENCE

Power BI Data Analysis – AdventureWorks (TAFE / PL-300 Labs)

- Loaded and transformed data using Power Query
- Built data models and relationships in Power BI
- Created DAX measures for analysis (including time-based calculations)
- Designed dashboards and visual reports
- Applied data validation and quality checks

Final Project (In Progress)

- Cleaning and transforming data using SQL
- Building a data model and visualisations in Power BI
- Analysing data to answer business questions

Pharmacy Lab Compounding Technician | Pharmacy 777 (2023 – 2025)

- Maintained highly accurate records in a regulated environment
- Ensured data integrity, compliance, and documentation standards
- Identified discrepancies and supported quality processes

Hospitality and Event Roles | Australia (2018 – Current)

- Coordinated event logistics and stakeholder communications
- Collected and analysed feedback to support reporting and process improvements
- Managed bookings, systems, and customer data
- Worked in fast-paced environments requiring organisation and accuracy
- Developed strong communication and problem-solving skills

Pharmacist | Hospital Pharmacy Roles, Brazil (2013 – 2017)

- Managed hospital pharmacy inventory systems, data records, and compliance documentation
- Used databases to support clinical reviews and reporting
- Trained staff on procedures and systems usage
- Maintained high standards of accuracy, confidentiality, and organisation
